On this project we:

- Created and designed architectural interior drawings.
- Created Mood-Boards and found the right suppliers to meet our designs.
- Displayed products strategically to help client realize presentation significances in terms of size, color, and placement in relation to existing space and furnishings.
- Designed and rendering 2D&3D.
- Managed and supervised ,the construction workers so they delivered the project as was designed.
- Partly designed custom made furnitures.

Diverso Stainless Italian Cofee:

The design philosophy is based on the client's brief for a contemporary space, which renders the difference of its identity. Custom-made furniture/objects within a synthesis of light and sculpture recompose a welcoming atmosphere.
